

150 Offer Blood To Aid Infant

'Whole World Looks
Different,' Family Of
William Turner Says

The family of nine-month-old William Turner was overwhelmed with response to an appeal made last Thursday for 25 blood donors to aid the infant through a delicate heart operation scheduled for March 8. More than 150 persons volunteered blood and many others offered their services by taking donors to Barnes Hospital, St. Louis, where the child is undergoing treatment.

"It makes you feel proud to live in a community so fine as this," the baby's father, Gilbert Turner, told the Press-Record. His wife, who has been living at the hospital with the child, telephoned the Press-Record to express her jubilation. "We think it's just wonderful, and we want the people to know how wonderful they are."

The baby was born here last May 31 with a congenital cavity between the two upper chambers of his heart and with an extra blood vessel that runs from the left ventricle to the main artery. The condition was discovered when he was a few months old.

Bi-State Pilot Group, Sponsors To Meet Feb. 27

David Lookes, planning director of the Minneapolis-St. Paul metropolitan area, will be the principal speaker at the first combined meeting of the Illinois-Missouri Pilot Committee for Development and sponsors of the committee Saturday, Feb. 27, at the Park Plaza Hotel. He will talk on "Strategy in Other Cities."

Theme of the day-long meeting will be "What Strategy for Progress?" After registration of the 22 Pilot Committee members, 11 from each state, and the 100 sponsoring group members at 9:30 a.m., Chairman C. E. Townsend, editor of the Press-Record, will open the conference at 10 a.m.

Presidents of the three area universities — Washington University, St. Louis University and Southern Illinois University, who appointed the Pilot Committee, will outline briefly the role of the schools in metropolitan development.

A general discussion of the morning program will follow the principal address by Lookes and a talk on "Why the Conference?" by Eugene Johnson of Washington University.

After lunch, the audience will be split into three groups to pursue separately suggestions on how to best study metropolitan area problems, and how to assist governmental agencies in working together, and how to help citizen organizations and civic groups to function more effectively together.

As in prior sessions of the bi-state Pilot Committee, major theme of the day's program will evolve around ways to improve communication and coordination between all groups concerned with community and area progress.

The conference will end at 5 p.m. after receiving recommendations from the group sessions. A number of public officials from the St. Louis area will be special guests during the night.

Thieves Looting Parked Cars In Area

Hubcaps Stripped Off
Three, Others Rifled;
Radio, Heater Stolen

Parked autos were the target of thieves over the weekend, according to reports made to local police departments. Loot included a complete set of hubcaps, a radio, a heater and a number of miscellaneous items, including a sterling silver napkin ring.

However, the officers have been able to recover some items taken from cars in recent weeks, and Granite City Chief of Detectives James R. Lowder, said Saturday there are many articles of value at the headquarters which will be returned to the owners upon making proper identification.

Three reports were received over the weekend by Granite City police from auto owners who said all four hubcaps had been stolen off their cars.

A. T. Smith, 2162 Washington avenue, said his 1959 auto was parked at his home Friday night when four spinner-type hubcaps were stolen; and Harold Bald, 2028 Cleveland Blvd., told police his 1957 auto was parked in front of his home, also Friday night, when four spinner-type hubcaps were removed.

Ted Wolf, 2426 State street, reported Saturday afternoon that all four hubcaps were taken off his 1959 auto while it was parked at Bowland Bowling lanes.

Radio, Heater Stolen

A thief who likes to work in the dark removed the dome light and broke the dashboard light in the 1957 auto of Ed King, 1420 Edwillee road, before stealing the radio and heater.

King said the theft occurred between 3 and 11 p.m. Friday when the car was parked on the General Steel Castings Corp. lot, a waste area established before the steel mill was to be built.

Parked Car Looted

Beard M. Smith, 34, of 1618 Lindell Blvd., reported to Madison County sheriff's office that a 1957 Ford was parked at his home Friday night when a thief stole a radio, a heater and a number of miscellaneous items, including a sterling silver napkin ring.

Man Captured
Near Scene of
Store Burglary

Venice police captured an ex-convict near the scene of a grocery store burglary at 9:07 p.m. Saturday and have charged him with burglary and larceny and destruction of property. A hearing is expected to be held today for Howard L. Dean, 30, St. Louis, who denies that he was involved.

Witnesses said a man made three trips from the New Way Grocery, 1051 Douglas street, in taking cigars, ladies' hose and other items up a vacant lot a short distance away. Patrolmen only a block from the store when alerted, police officers followed a trail of cigarettes dropped in an alley and arrested Dean. It is believed that most of the loot was recovered.

Entrance was gained by breaking a pane of glass in the front of the building, police said. They added that some of the cigars and hose were found in Dean's clothing.

The police said the man has served in prison at Chester, Ill., on a knife robbery conviction and in Jefferson City, Mo., on a burglary conviction.

Difficult Operation

Mrs. Turner said a steady flow of blood must be continued during the 45-minute operation through a mechanical heart-lung process. She said the time limit for such an operation on an adult is an hour. Little William will be one of the first babies to undergo an operation utilizing the machine.

The Turners' telephone began ringing shortly after last Thursday's Press-Record appeared on the street, carrying a front-page article with the family's appeal. By 9 p.m. Thursday, 30 blood donors had volunteered and 20 others were in reserve. Many other persons called to offer any service they could give.

"The phone rang until 11:30 Thursday night and resumed Friday morning," Mrs. Turner said. No one was home during the day Friday, but when the Turners' 7-year-old son, Keith, a senior at Madison high school, was home 20 minutes for lunch, he took six more phone calls, and many more were received Saturday. By mid-morning Saturday, the family figured the calls had topped 150. While none were from Quad-Cities, there were also calls from residents of Glen Carbon, Collinsville and East St. Louis.

16 DAYS WITHOUT A QUAD-CITY TRAFFIC DEATH

There was damage to the left fronts of both cars, but no injuries were listed.

'People Are Wonderful'

"It makes the whole world look different," Mrs. Turner commented. "It's just wonderful. Too wonderful for words to know people are so kind and so considerate and thoughtful."

While the baby's father had been working at a feverish pace to line up the donors early last week so that tests could be made this week, he was only able to arrange for four or five. He is employed as a repairman in an East St. Louis auto-body shop, and because of the extensive treatment required for the infant, knew it was impossible to hire donors.

The infant did spend the Christmas holidays at home un-

ARMED GUARDS AND MOVERS

literally covered the currency box as it was moved from the old to the new First Granite City National Bank Friday night. The box was moved without incident as traffic on Edison avenue was halted. Thirteen police officers, all armed, guarded the short over-the-clock move. The amount in the heavy box remains a "trade secret." (Other pictures on pages 2 and 3).

Moving 200 Feet (If You're A Banker) Is No Small Task

What is involved when a banking institution moves, lock, stock and currency, from one location to another, even when the distance from the entrance to the old building to the new is almost "round-the-clock" schedule over the weekend.

Probably the most concentrated efforts on the part of bank employees, Granite City police and moving men began shortly after the bank had closed its doors to customers in its old location at 7 p.m. Friday. Shortly thereafter 40 employees, loaded with various pieces of banking equipment and furnishings began to roll out of the old building, down a ramp onto Edison avenue, across the street, through the new bank building, parking lot, up another ramp into the new building, into an elevator and then down to the lower level on the bank's work area.

The moving parade continued uninterrupted until nine p.m. when additional policemen appeared and blocked off Edison avenue to all pedestrian and vehicular traffic.

Move Currency

After considerable delay on the street, cleared guardedly by police and bearing a large, almost square wooden crate inside was the bank's supply of currency. Six tellers' trays which are stored as a single unit in the bank vault. Another similar but smaller unit appeared later, this one carrying the supply of checks which had been deliberately lessened during the last week the bank was in operation at the old stand, to be renewed when an armored car delivered sacks of coins this morning to the new bank.

NRAB Hearing Tuesday On Water Job Picket

A hearing is scheduled for 10 a.m. tomorrow in the St. Louis office of the National Labor Relations Council in connection with picketing at the Pontoon Beach water system construction project by Teamsters Local 525.

The picketing started Feb. 10 but has not shut down the project. A complaint was filed with the NLRB by E. A. Weinel of Belleville, contractor and president of the water line project against Teamsters Local 525.

An NLRB official said the complaint alleges a jurisdictional dispute over claims for work assignments. The Teamsters seek the work of unloading materials for the project now being carried out by laborers of Local 397 and the job of hauling rock and materials for fire hydrant installations now being done by Operating Engineers Local 520.

Weinel says he has a contract with the Illinois Conference of Teamsters of which Local 525 is a member, and that work on the job is being continued for an agreement with business agents of other unions.

His competition in last week's contest included speech students from Collinsville and East St. Louis. All orations are based on the student's interpretation of the U. S. Constitution.

der-oxygen tent but returned to the hospital Jan. 9. The family has been aided by the Elks Lodge 1063 Crippled Children's Committee, with partial payment of hospital and medical bills.

Heart Enlarging

In the operation, it will be necessary to alter the walls of the child's enlarged heart to make all chambers the same size. The unnecessary blood vessel will be tied off. Such surgery generally is not performed until a child is at least one or possibly two years old, but because the infant's heart is enlarging, urgency of an immediate operation became apparent.

The medical staff at the hospital is sure the baby's operation can be a success. "A nurse told me," Mrs. Turner said, "that everyone in the hospital will hold their breath while the operation is going on. They think a lot of the baby."

The Turners, who live at 2007 Sixth street, East Madison, are thankful the heart-lung machine can be adapted for their small child. They also have four other children, Keith, 17, Linda, 12, David, 7, and Kevin, 4.

Woman Catches Finger In Car Door, Loses Tip

Mrs. Melba Simmons, 1132 Reynolds street, underwent surgery for amputation of a part of little finger of her right hand at St. Elizabeth Hospital Thursday afternoon. She had caught it in the door of a taxicab.

In other emergency cases, treatment was given Joseph W. Podnar, 61, of 1513 Fourth street, who suffered a possible rib fracture when he fell against his car while working on it, and Joan Singleton, 15, daughter of Mr. and Mrs. Berlin Singleton, 2528 Grand avenue, who sprained her knee in a physical education class accident at Granite City high school.

Terry Lear, 3, daughter of Mrs. Wanda Lear, 718 Twenty-sixth place, had her stomach pumped after swallowing a large dosage of medicine, and on Friday morning, Alvin Mason, 8, son of Mr. and Mrs. Alvin Mason sr., 305 Weaver street, ran a sewing needle in his right hand and had it removed.

Deacons Ordained For Suburban Baptist

New deacons of Suburban Baptist Church ordained yesterday afternoon at Grace Baptist Church were Roy Fisher, Ernest Green, John Lloyd, William Chabree, James Blaylock, Joe Fox and Paul Hopper.

A council was formed with Rev. Keith Stanford as moderator, Rev. William Nesbitt, clerk, and Rev. Kenneth McDaniel, interrogator. There are 34 ordained men on the council, and Rev. Van Spock of Mitchell gave the charge to the church. Rev. Howard White the charge to the deacons and the ordination sermon and Rev. W. L. Showers led in the ordination prayer.

During the service the superintendent of associational missions, Rev. Lloyd Spencer, was given a farewell cash gift of \$147. With his wife and daughters, Marilyn and Wilma, Rev. Spencer will leave soon for Macomb, Ill., where he will be area missionary for 10 counties.

A letter of appreciation was read by the moderator of Madison County Baptist Association, Rev. George Sagen, in which he stated that Rev. Spencer was largely responsible for the newly-organized Alton Industrial Baptist Association which was previously a part of the Madison County group.

In the Alton association are 16 churches and two missions and in the Madison association there are 20 churches, two missions and a goodwill center. The original association grew to this total of 36 churches, four missions and goodwill center from a 1953 total of 22 churches, two missions and the center.

179 Registrations Of Voters At 4 Centers

New voter registrations totaled 179 at four special centers here last week, County Clerk Eulalia Hotz reported today. The figure includes 84 at the Wilson avenue grade school, 52 at Kirkpatrick Homes, 30 at the Niedringhaus grade school.

Miss Hotz also listed 47 changes of address received at Kirkpatrick Homes, 33 at Wilson avenue and 28 at Niedringhaus. It is not necessary to take changes of address to the registration centers, she noted. The new address may be written on the back of the card and mailed to the county clerk's office in Edwardsville.

The law prescribes that address changes be submitted directly to her rather than through precinct committees, she reminded voters.

Meter Stakes Ready At Pontoon Beach

Residents of the Pontoon Beach area, where the new water lines are being installed, were asked today by Project Engineer Edward Juneau to mark the location for a water meter on their property with a special stake.

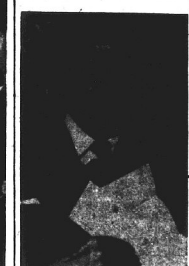

Juneau said the white-tipped stakes are available at the store of Andy Bukovac, chairman of the Pontoon Beach Public Water District, and should be obtained as soon as possible so installation of meters can proceed.

He pointed out the contractor is experiencing difficulty in locating property owners to learn where they want the meters installed, and the stakes will eliminate delays.

URGES SUPPORT OF FORAM BILL

To the Editor:
Every person who is drawing any kind of Social Security benefit, disability or survivors benefit, and all on Old Age Assistance should write immediately to his Congressman and United States Senators asking them to support the Foram Bill.

This bill was introduced by Representative Alvin J. Foram (D-Ill.) and will allow \$100 per year hospitalization, 120 days per year nursing home care, surgery, drugs and all the usual hospital care.
To finance this plan approximately \$12 per year must be deducted from one's pay in addition to the same amount being paid by employer.

The amount now paid to recipients of Social Security and Old Age Assistance is not enough to meet the high cost of hospitalization and premiums for private insurance are too high and the benefits too low for participation of these groups in a voluntary plan.

The Foram Bill provides for administration through the Secretary of Health, Education and Welfare who shall not interfere with the internal management of any participating institution nor shall he interfere with one's choice of doctors.

Adequate care of the aged is one of our most pressing problems. The only way to provide such care is through an extension of Social Security.

Since this will be a short session of Congress, about 5 months are left for action on your part which means that letters to overcome the powerful opposition must be written.

PRaises Mayor For SEEKING CITIZENS AID
Hats off to Mayor Davis for recommending a citizen committee to suggest what streets should be improved.

The Civic League is not against the City's improvement when it is needed, but now there are many streets badly in need of improvement. For instance, in Tri-City Park we don't have one street paved or sidewalks, while Lincoln Place and West Granite have lots of paved streets.

I'll be too glad to serve on one of the citizens committees. I also say hats off to our Mayor Schmitt for suggesting something for his ward. There are many streets in need of improvement here that need improvement before they can be done over.

Let's be fair with everybody and spend the tax money wisely. The Civic League is not against anyone, but is organized for justice for all.

Men Of Steel, Vision Will Be Honored

At Local Civic Achievement Dinner

If one word could sum up the history of Granite City, it would be steel. Men of steel and men of vision founded the community and have guided its progress. The efforts of pioneer steelmakers and steel labor organizations are closely woven into local history, and their courage and fairness have helped make that history great.

It is fitting that the largest dinner gathering ever assembled here will pay tribute Wednesday night to the United Steelworkers of America and the Granite City Steel Co., as winners of the Associated Retailers' 1959 Civic Achievement Award. The community is proud to welcome David J. McDonald, Steelworkers' international president, and we are sure that he takes pride in the labor-industry friendship here and the accomplishments of the six Quad-Cities and 14 nearby steelworkers' locals to be represented at the banquet.

Both steel production and steel unions were established in the Quad-Cities before the turn of the century. Today, well over a half century later, industry and labor can look back upon a record that has benefited not only the communities and employees but also the community and nation. Mutual confidence and an enlightened approach to negotiations and rules interpretation have resulted in peaceful progress and expansion unparalleled almost anywhere in the steel industry.

Less than a year ago, at the All-America City award dinner in Granite City, Secretary of Labor James P. Mitchell said prophetically that labor agreements reached here could serve as "a lesson to the rest of the nation." The local steel settlement a few months later while most of the country's steel mills were in the midst of a 116-day work stoppage again singled out this community as an example of how effective bargaining can be conducted for the good of all.

Labor negotiations are not an easy task and cannot be one-sided if they are to be successful and mutually beneficial. That local industry and unions have learned this will be recognized Wednesday night. The massive, overflow gathering will symbolize the community's outpouring of gratitude.

A politician's paradise is a campaign without any opposition.

Chicagoans Learning Lesson That

Gang Rule Must Not Be Tolerated

It is sad but true that our state includes a metropolitan area where "corruption is a way of life" in many sections of the city. For decades, Chicago has been the headquarters for nationwide and worldwide operations of the gangster syndicate. Mobsters' presence has permeated the governmental structure, leading to far worse effects than the hundreds of never-solved gang murders.

The Press-Record has opposed gangster infiltration in the Quad-Cities and Madison county, not only because of the moral issue but due to the disastrous effect such crime has on the caliber of government. Organized crime cannot operate without public officials' connivance, and once-corrupted leaders can hardly be trusted to perform their other duties with integrity.

The road to clean government in Chicago may be long and difficult. But one encouraging sign is that the problem has finally begun to hit home to the people. Some merchants have found that they cannot

do business with the mob.

Being courteous may require a little extra time, but, in the long run, it often saves time.

get their insurance due to police inefficiency. Horrible crimes not connected with gang killings remain unsolved, such as the two separate group murders of three young boys and two girls several years ago. Drivers charged with traffic law infractions are "held up" by police who conduct "courts" of the scene. Crime has soared in some districts, as "cops and robbers" work hand in hand. With police beholden to ward leaders, who are beholden to the underworld, law discipline and outright corruption have resulted on a widespread scale.

Many Chicagoans today are ashamed. Madison county has successfully fought off a hoodlum invasion that was a real threat for a number of years and could rise again if the lessons of the past are forgotten. It will be a great day for Illinois when our neighbors to the north awaken to their citizenship duties as this area has awakened.

Any community of individuals can get along if it has some unselfish leaders.

Approval By Granite City Council Will Speed Master Drainage, Whiteway Programs

Two major improvements needed in Granite City received a green light at last week's meeting of the city council.

In accepting the recommendation of the 25-member study committee created by the mayor and council a year ago, the councilmen made possible an early start on preliminary plans for a master sewer and drainage program. This work, which will include a river pollution study, will be financed by a \$120,000 federal grant. Contract details are to be worked out in negotiations with the Sheppard, Morgan and Schwaab engineering firm.

The council also approved installation beginning this fall of a whiteway lighting system on Madison avenue from 14th street to 30th street. The 116 lights, of similar brilliance as the new Madison whiteway system, will help provide a bright-as-day thoroughfare extending two-thirds the length of Granite City.

The council members' votes during their busy session served to advance two important improvement programs closed to realization.

Present Court Test Is Only Way To Solve Out-Of-State Tax Dispute

Filing of a tax suit by the Southern Illinois Citizens League is a welcome development. The dispute between Missouri state and city taxing bodies and Illinois residents can be resolved only in the courts, and the quicker the decision the better.

The agencies levying earnings taxes on out-of-state residents feel that all workers benefit from services provided by the city of St. Louis and the state. The opponents question the fairness of the procedure, pointing out that they have no vote in the matter. They are angered particularly by the "soak the out-of-towners" campaign methods used in the last election to increase the earnings tax.

Recent legal crackdowns on Illinois residents ignoring the tax bills make a prompt court ruling more important. The suit now filed represents a step toward a decision by which both the taxing bodies and taxpayers can govern their conduct.

Stalled Auto Put In Reverse, Causes Crash
A motorist whose car stalled at a stop sign and then was put in reverse when the engine was restarted was involved in an accident on Johnson road at the Nameok road intersection Thursday evening.

Police said Hazel K. Cline, 2505 East 25th street, was traveling west and had trouble with her car. In the process of restarting the engine, the car backed into the westbound auto of Sylvia Turner of 3604 Terrace lane. There was damage to the rear of the Cline auto and to the front of the Turner car. No injuries were reported.

Warriors Win Sectional Wrestling Title Saturday

Brewer Only Individual Champ, Ridings Upset After 27 Straight

In a meet filled with upsets, Granite City high school walked off with its seventh straight sectional wrestling title Saturday, even though the Warriors won only one individual championship.

William Schmidt's wrestlers compiled 76 team points, 21 more than second-place Wood River, Jacksonville and Springfield Lanhier, both top finishers in the Springfield district tournament, tied for third and fourth with 39 points apiece.

The only other team to finish in the top five was Alton, which had a bad fashion for Warriors fans when Dan Brawley, 133, Charles Parkinson, 127, and Sam Fazio, 138, each won district championships, lost in the first round.

Granite City has had at least six finalists at state every year since 1971, when only four qualified for the state meet.

Other team points: Quincy 25, Vandalia 22, Springfield 20, Fitchburg 18, Cahokia 18, Roxana 13, Belleville 13, Carbondale 12, Decatur 12, Edwardsville 12, De Witt 12, Morris 12, Newburg 12, Union 12, Yorkville 12.

But the fourth Granite City wrestler in the final round, Dave Brewer, finally gave the Warriors a championship when he soundly defeated Lanhier's Ron Sprague 13-2 in the 180 pound class.

Early in the match, it looked like Brewer might lose through a forfeit when he hurt his shoulder, caught in a shot by his opponent. The bout was stopped momentarily while the Granite City trainer, Coach Dan Brawley, examined Brewer and then gave his approval to continue.

The defending 180-pound champion, Ron Sprague, was forced to work after the interruption to gain an easy win over the second period.

Ridings Beat Heavyweight Bill Ridings, Warrior heavy-weight who had won 45 straight in a row for a school record, was finally defeated by All-State football fullback Larry Kristoff of Carbondale. Community Ridings had beaten Kristoff in the district last week, 8-5. The only point scored in the sectional re-match was an escape by Kristoff in the second period.

Kahok Sophs Down Granite City 63-37. A taller Collinsville sophomore team was too much for Granite City's sophomores here Thursday night, and walked off with a 63-37 win.

"We worked the ball around and got some good shots, but just couldn't hit," Granite City Coach Dick Harmon said. "Larry Corey played a terrific game with good ball handling, rebounding and shooting."

Corey led the Warriors with 16 points. Other scorers: Buehler 11, Comer 3, Bigley, Fields and Sparks 2 each, and Bjorkman 1. The last game of the regular season will be a home contest tonight with Alton.

JACOBSMEYER'S TAVERN FOR FRESH COLD SCHLITZ - STAG - MICHELOB ON TAP

Dave Brewer of Granite City, foreground, is shown taking down Ron Sprague of Springfield Lanhier on his way to a 13-2 win in the championship bout of the 180-pound class of Saturday's sectional wrestling tournament here.

Granite City finished the regular season with 21-5 overall and 10-2 conference records, the best in recent school memory.

After a close win at Alton Friday night, 57-54, the Warriors finished second in the Southwestern Conference.

Rich Williams, guarded closely to prevent him from getting good shots, failed to win the individual Southwestern Conference scoring championship for a third straight time when he tallied only 15 points for a season's total of 232.

Brooks of East St. Louis won with 205 points. Williams shot only 48.5 times the whole season half even though he knew that he would have to shoot to score points.

Carl Wortham and Bob Price shared starting honors in Friday's game as both came through with key baskets in the final quarter. Alton led the first half but the Warriors tied the game early in the third period and the contest was nip and tuck the rest of the way.

The game had been tied for the 14th and last time with 2:30 left in the final quarter when Wortham tipped in a shot and Price drove in for a layup to give

"That's a mark of a tremendous team player," Coach Andy Sullivan said after the game. "He wanted to win the game more than the individual championship. If he would have gone after the title by shooting a lot we might not have won the game."

Exterminators Clinch Tie For Classic Title

Modern Exterminators virtually clinched first place in the hotly contested park district Classic basketball league Thursday night, defeating arch rival Spangler Oil 92-83 at the Coolidge gym. The Teachers won by forfeit over Friedman's of Madison and moved into third place.

Tied for first place with 8-2 records going into Thursday's contest, the two contenders provided the largest crowd of the season with plenty of thrills. A total of 42 fouls, plus two technical fouls, one on a player and the other on an over-exuberant fan, spiced the evening's entertainment.

The Exterminators actually did no more than clinch a tie for first place, since a loss next week to the Teachers, coupled with a win for Spangler Oil over Friedman's could throw the two squads back into a tie for first place. Regular season play ends next week.

That possibility is not as remote as it first appears. Friedman's (2-9) might forfeit its third straight to the Oilers, while the Teachers own a 94-93 overtime decision over Modern which dates back to Jan. 18.

Park District Recreation Director Harold Brown said today that if Friedman's should forfeit next Thursday's scheduled game, the Oilers would be dropped from the league and automatically bumped from the playoff round, which begins Feb. 23.

The Exterminators had to come from 14 points behind to win Thursday. They trailed by that margin early in the second period, and were still down 37-40 at intermission.

But the squad caught fire in the third period, and with 10 minutes to go had a hand in piling up

30 points. go Modern surged to 47-42 lead at the end of three quarters and maintained it to the wire. A 27-for-35 night from the free throw line helped considerably.

Dave Hrysko virtually assured himself of the individual scoring title by totaling 20 points for the winners. His closest competitor was the leader on average points per game, Bob Miller of the Teachers, lost a change of gain ground as the result of the second game forfeit.

Bob Duffield surprised with 21 more points for Modern Exterminators. Bob Page added 19 and Bill "Satch" Page, 13. Art Borchers and Jim Keller each rained 19 for Spangler Oil. Jim Bain and Walt Wilson added 12 each and Norm Martinez 10.

The league standings:

Team	W	L	PF	TP
Modern Exterminators	9	2	875	882
Spangler Oil	8	3	867	789
Teachers	8	3	859	818
Friedman's	2	9	836	718

Rams Finish Season With 13-6 Record

Venice Lincoln enters the Triad district tournament with a 13-6 record after finishing the regular season Friday with home victory over St. Paul of Highland, 67-50.

"An optimistic scout sees our chances in the district tournament after this game," Lincoln Coach Stan Lincoln said. "We've finished with a good record in the MWC conference and our easy victory shows that we'll be tough against that league's winner, Triad, if we should meet."

After the Rams opened with two free throws, St. Paul started a ball-court game only to lose the ball three times on bad passes. Each time Lincoln scored and the losers had to change their plans. But it was too late as the Rams jumped off to a 21-7 first quarter lead.

After trailing 34-22 at halftime, the Rams came back in the third quarter to pull within one shot and hit eight of the door after that and raced to a 51-29 lead at the end of the period.

Lincoln shot 42% for the game compared to 39% for St. Paul. Each team had four straight baskets at the start of the third quarter to pull within one shot and hit eight of the door after that and raced to a 51-29 lead at the end of the period.

Optimist Club Hears ICS Representative

William G. Cookston, St. Louis area representative for the International Correspondence Schools, told members of the Noonday Optimist Club Thursday that the institution he represents and others like it are becoming an increasingly popular method by which Americans further their education.

Cookston said enrollment in correspondence courses over the last decade has increased the total number of students enrolled as college and university freshmen in this country.

But he continued, similar courses offered in the Soviet Union are attracting a larger percentage of the Russian population. This fact does not reflect adversely on the system employed here, since over 50% of the Russian people receive their education through correspondence schools, he stated.

The ICS official said the correspondence method holds some advantages over ordinary schooling. The chief of these, he claimed, is the absence of any strict time factor. Correspondence courses may be completed over varying lengths of time, and study periods are not strictly regulated, he added.

Cookston was introduced by club program chairman B. C. "Tip" O'Neill. Guests at the regular meeting were Roy Hudson and Cliff Blankenhorn.

Heart Sunday To Be Held Feb. 28 In This Area

"Heart Fund Sunday" will be held Feb. 28 in the Quad-Cities when representatives from eight organizations will visit home seeking contributions for research to fight heart disease. The goal of the fund is to raise \$7500, according to Drive Chairman William Caudle.

Some of the goals being received in the "tag day" sale last Saturday in area supermarkets and as a result of a solicitation of businesses. The big day will be this coming Sunday. Workers will leave at 7:30 p.m. to deliver the mailboxes of homes where no contact is made.

Some heart diseases are not, as some believe, a problem of old age," Caudle said. "In the old age group, the heart disease takes more lives than the combined total of the next five causes in the same age group."

Caudle has been an active worker in Heart Fund drive for the past four years and is a member of American Legion 113, vice-president of the area PTA and active in scout work. He lives at 2820 East 24th street.

Aiding him in the campaign are: Mrs. Dora Edwards, Mrs. Williams, William Niepert, Mrs. Pat Skinner, William Skinner, John Lerch, Al Jaedmann, Robert Orasco, Jeanne Honorable, Mrs. Hilda Gravelle, Miss Alice Holcomer, Mrs. Janice Billeo, Miss Jackie Logan and Walter Gehling.

Members of the local heart fund committee are Mrs. Betty Ebling, Mrs. Dora Edwards, Mrs. Ella McKittrick, Mrs. Joyce Willmore, Fred Coin and John Lee.

The money received will go to the National American Heart Fund for research in causes and prevention of heart diseases.

"In the last few years research has developed new heart-saving advances," Caudle said. "These include safer heart surgery, new methods to prevent and control most cases of rheumatic fever, discovery of new drugs to control high blood pressure and to guard against repeat heart attacks and perfection of improved prevention and controls of heart disease."

Clubs helping the drive on Heart Sunday are American Legion Posts 113, 799 and 307, local chapters of Beta Sigma Phi and Epsilon Sigma Alpha sororities and Roca Club.

Half of Madison Countyans Will Live To See Year 2000

(Special to the Press Record)
NEW YORK, Feb. 22 — Well over half the people now residing in Madison county can reasonably expect to be alive in the year 2000 to celebrate the dawn of the 21st Century.

That is the statistical probability, based on the mortality tables of the National Office of Vital Statistics and on studies showing the gains in longevity achieved since the last census.

It assumes that there will be no world war and no other unnatural holocaust in the interim.

Under such conditions, some 128,300 of the present Madison county population are scheduled actually to be here to mark the turn of the century. They represent 54.6% of the total population.

Dutchik Completes Tour Of Pacific On Cruiser

Marine Cpl. Sheridan J. Dutchik, grandson of Frank Dutchik, 2600 Washington avenue, returned to Long Beach, Calif., last week aboard the heavy cruiser USS Bremerton after a four-month tour of duty with the U.S. Seventh Fleet in the Western Pacific.

Besides participating in various operational exercises, the Bremerton and her crew visited Hawaii, Japan, Hong Kong and the Philippines. The cruise marked the Bremerton's ninth and final trip to the Orient since commissioning in 1944. She is scheduled to be decommissioned at Long Beach this spring.

Estimate Conservative

It is based on the mortality and survival rates that pertain today. The estimates are most conservative because they make no provision for future scientific accomplishments that will add to the life span in the next 40 years.

The likelihood is, on the basis of past experience, that five years of life will be added to 2000. Such is the conclusion reached in a study of the subcommittee of the National Security Administration.

It contemplates the practical elimination of death from infections, the complete control of tuberculosis and a sharp reduction in heart disease and cancer mortality.

Life Span Rising

In Madison county, the span of life has been rising steadily because the population, taken as a whole, has been getting younger.

In 1950, when the last census was taken, the median age locally was 30.7 years. Since then, there has been an increase in the proportion in the older groups, but that has been more than offset by the rise in the number of children.

Nationally, such developments have caused a drop of close to a year in the general age level. The average change, applied to present median age locally down to 29.8 years, which is somewhat higher than the United States median of 29.3 years.

Life expectancy at that age now averages 43.1 years, which is nearly a year more than it was locally in 1950.

Motorist In Crash Shy He Was Blinded By Sun

A motorist who told police he was blinded by the sun and failed to see the other auto was charged with failing to yield right-of-way Friday morning following an accident at Jill and Carlson avenues.

The motorist, who was issued an arrest ticket, was Nick M. Petrillo, 41, of 3506 Franklin avenue. He posted his driver's license as bond. Police said he was traveling south on Carlson avenue, while the other car was being driven west on Jill avenue by Elsie Hudson, 29, of 1924 Joy avenue. There was damage to the right side of the Hudson auto and to the left front of Petrillo's car. No injuries were listed.

Life expectancy at that age now averages 43.1 years, which is nearly a year more than it was locally in 1950.

Estimate Conservative

It is based on the mortality and survival rates that pertain today. The estimates are most conservative because they make no provision for future scientific accomplishments that will add to the life span in the next 40 years.

The likelihood is, on the basis of past experience, that five years of life will be added to 2000. Such is the conclusion reached in a study of the subcommittee of the National Security Administration.

It contemplates the practical elimination of death from infections, the complete control of tuberculosis and a sharp reduction in heart disease and cancer mortality.

Life Span Rising

In Madison county, the span of life has been rising steadily because the population, taken as a whole, has been getting younger.

In 1950, when the last census was taken, the median age locally was 30.7 years. Since then, there has been an increase in the proportion in the older groups, but that has been more than offset by the rise in the number of children.

Nationally, such developments have caused a drop of close to a year in the general age level. The average change, applied to present median age locally down to 29.8 years, which is somewhat higher than the United States median of 29.3 years.

Life expectancy at that age now averages 43.1 years, which is nearly a year more than it was locally in 1950.

Over 4800 beads formed designs on the jacket and sleeves. A war bonnet of black and white feathers reached almost to the floor, and hand-made buff moccasins, made by the Colorado Indians, completed the costume.

Davis began his oration in sign language and then smoked a "peace pipe" before beginning the demonstration. Blow pipes were shown to the audience. Davis also showed his collection of Indian arrows, hoes, ground-diggers, scrapers, urns and bowls, some of them 900 years old, and explained how the ages were determined and where he acquired them.

In smoking the peace pipe, he said that he is the only white man authorized to do this. He must do it at all important events, according to his instructions from Chief Thundercloud. The next meeting of the pack will be held at the Nameoki school on Friday, March 25, at 7 p. m.

Hearing To Begin On Depot Housing Cost

The House Government Operations Committee's subcommittee on executive and legislative reorganization will conduct a hearing Thursday on a complaint by Comptroller General Joseph Campbell that construction of 50 housing units at the Granite City Engineer Depot in 1956 cost \$916,136, compared with a \$642,000 limit placed on it by Congress. No local officials are involved in the contract decision having been made by authorities in Chicago.

Campbell has charged that the cost was made to appear within the limitation through "arbitrary transfer" of \$230,000 of the total to items exempt from the limitation, including refrigerators, ranges, gates and fences. The complaint already is under study by the House Armed Services Committee at the request of Cong. Melvin Price, who said a "serious mistake" was made in contracting for the units.

Major Gen. Lyle E. Seaman, Army director of installations, also is assembling information on the project. Campbell says four bids were rejected in December 1955 for exceeding the limit, but that a negotiated contract was signed later. Total cost exceeded the original low bid of \$886,718 by \$134,418.

Trades Council Seeks Election At Hospital

A telegram, requesting a union election for hospital employees, was sent Thursday to Sister M. Stanisla, administrator for St. Elizabeth Hospital, by Edwin Reiske, president of Tri-City Trades and Labor Council, AFL-CIO.

Reiske said an election to determine if about 150 non-professional employees want to be represented by a union, was endorsed during last week's meeting of the Labor Council, and he was instructed to send the telegram to arrange a meeting of the hospital staff with organizers from the Chicago office of Building Service Employees' Union.

The organizers, Reiske said, reported to the council that the majority of the hospital employees favor such an election and have signed cards requesting an election.

Autos Collide

Involved in a minor accident Sunday afternoon in the 900 block of Alton avenue were autos driven by Madison Postmaster Harry Johnson, 62, of 1538 Third street, who was pulling away from the curb, and the northbound auto of Mike A. It pointed out that working conditions are the main reason a union is sought, since the pay scale at the local hospital are in line with area rates.

The council is asking for an election to be conducted under the supervision of the Illinois state director of labor.

Thwaitt Hearing Set Wednesday

Continued to next Wednesday was last Friday's hearing for Terry Thwaitt, 31, ex-convict, who faces a charge of shooting with intent to kill in connection with a shooting Jan. 24 outside a tavern on Chouteau Slough road. The preliminary hearing is scheduled before Police Magistrate Gasparovic.

Thwaitt, who lives in a trailer adjacent to the Club Bayou tavern, remains free on \$5000 bond. He has been charged by county authorities in the shooting of Otilio Valencia Jr., 33, of 1809 Spruce street, following an argument which started inside the tavern building.

Valencia has said he was beaten and pushed outside and then backed up against the tavern building and shot in the abdomen.

The wounded man told deputy sheriffs the identity of his assailant before undergoing surgery at St. Elizabeth Hospital here for removal of the bullet. A warrant was issued immediately, but Thwaitt was not taken into custody until three days later when he appeared voluntarily at the sheriff's office in Edwardsville.

While Thwaitt is to appear for a hearing on Wednesday, a man identified as the bartender at Club Bayou on the date of the shooting is to appear for trial Thursday on a charge of selling alcoholic drinks after hours. William R. Free, 28, of Rural Route One, pleaded innocent during an earlier hearing and was released on \$500 property bond, pending this week's trial.

The shooting reportedly occurred about 10 a.m. on a Sunday, at which time taverns are to be closed, according to county law. Valencia said he was served drinks in the tavern prior to the shooting.

Madison police arrested Sullivan for having no driver's license, and he was released on bond.
